SUMMARY

Computer Science Engineering student interested in the intersection of data analytics, artificial intelligence, and product development. Experienced in building Excel and Power BI dashboards and exploring AI-powered solutions through projects and internships. Focused on using data-driven insights and user-centric thinking to solve real-world problems.

TECHNICAL & CORE SKILLS

- Programming: Python, SQL (Basics), C & Java (Basics)
- Data Analytics: Excel, Data Cleaning, Exploratory Data Analysis (EDA), Power BI Dashboards
- Tools & Platforms: GitHub, VS Code, Canva, Jira, Trello, Power BI, Tableau
- AI & Automation: Generative AI tools, prompt engineering, AI-assisted workflows, business metrics

PROJECTS

ClearWay - Smart Ambulance Alert System (Ongoing) - Patent filed

Developing a mobile-based solution concept to improve ambulance navigation and public awareness through intelligent notifications. Built and presented a simulation at FutureForge 2026.

NavSafe – Smart Safety & Navigation Solution (Ongoing)

Designed a user-focused safety and navigation concept featuring real-time alerts, emergency support, and safer-route recommendations.

AI-Powered ResumeBuilder.Bot

Built an AI-assisted resume tool concept for ATS-friendly resume generation, profile summaries, and prompt-based content suggestions.

AI Prompt Generation Tool for Designers

Developed an AI-assisted system to generate creative and context-aware design prompts, demonstrating prompt engineering, workflow optimisation, and AI-assisted content generation.

EXPERIENCE & INTERNSHIP

DVein Innovations – Data Analytics Intern (May 2026 – June 2026)
Currently gaining hands-on experience in Data Analytics through project-based learning and practical industry exposure. Developing analytical, problem-solving, and reporting skills using real-world datasets and business scenarios.

RISE Internship – Generative AI & Prompt Engineering Intern (December 2025)
Worked on AI-assisted workflows, prompt engineering techniques, and automation-based experimentation using Python and modern AI tools.

Tata Forage - GenAI-Powered Data Analytics Virtual Internship (September 2025)
Completed a virtual job simulation involving exploratory data analysis and a no-code predictive-modelling approach.

EDUCATION

B.E. Computer Science and Engineering - Agni College of Technology, Chennai (2024 - Present)

Velammal New Gen School - HSC 68.6 % - 2024 | SSLC 74.8 % - 2022

ACHIEVEMENTS & ACTIVITIES

- Founder – Tales by Mav (Generated ₹15500+ sales revenue in 1.5 year)
- Naukri Campus Young Turks 2026: Certificate of Merit for scoring in the 94.29 percentile (Oct '26)
- Buildathon FutureForge - Top 15 Finalist (2026).
- Japanese Language Course: Agni College of Technology; 60 hours, equivalent to JLPT N5 (April '26)
- AI for Social Impact Challenge 2026: Top 100 Finalist for ClearWay.
- Coordinator – $2 Challenge Entrepreneurship Event
